INTRODUCING THE INTERNATIONAL PUREDISTANCE TEAM

At Puredistance we not only sell worldwide, but also have a very international team.

Founder Jan Ewoud Vos, his daughters Iris and Tamara, together with the Production Manager Rachel, are from the Netherlands.

Nele is from Estonia, Angela from Ireland, Tiffany from Honduras and Najlaa is from Malaysia.

Iris lives and works in Helsinki and is responsible for social media. The rest of the team works in Groningen.

In Groningen we have a creative department that is responsible for all visuals, artwork and design; a sales & logistic department headed by Nele that sells and ships to more than 40 countries; direct sales is handled by Angela and the rest of the team is responsible for assembling the perfumes by hand and packaging.

Where possible we help each other and with such a supportive and loyal team we can keep the world of Puredistance not only beautiful but also organised and reliable.

Respect for each other and respect for the people around us - our retailers, suppliers and customers - is key.
