

CDLC | PUREDISTANCE

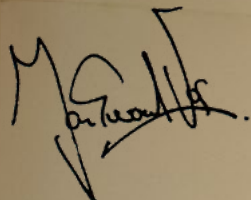

Photo Magazine 2026

Creative photography from
Lithuania, Latvia & Estonia

This Photo Magazine shows the world of Puredistance
SEEN through the lens of the Crème de la Crème Team.

And on this page you are looking at the Puredistance team
responsible for **CREATING** the world of Puredistance!

Jan Ewoud Vos
Founder Puredistance

Nele Tammiste in Cannes

When I started to work for Puredistance - now almost 14 years ago - what stood out for me was the fact that Puredistance was also sold in Lithuania, Latvia and Estonia by Crème de la Crème.

As I was born and raised in Estonia, the stores in the Baltic States always have a special place in my heart; as each visit to the boutiques is also a visit home.

All Crème de la Crème stores perfectly match the exclusivity and high quality of Puredistance. What's more, we find the Crème de la Crème sales teams are advising the customers in the best possible way. Because there are so many wonderful stories to tell about Puredistance, we highly appreciate this.

To be sure everybody knows the Puredistance story and perfume collection I regularly visit the stores. Which is something I always look forward to, because of the warm welcome I get.

Hosting the Photo Contest for the second time has been our pleasure and just like the first time we were impressed with the high quality of the images. We thank all participants for their effort and beautiful visuals.

I hope to see you again soon!
